

# Jazz at the Lakes

## Partners for a Healthy Hernando County

Since June 2011, the volunteer staffed Crescent Community Clinic has provided over 4000 patient visits to those who otherwise would not have access to health care. Many of these patients are co-workers, friends and neighbors. The total value of medical, dental and mental health services donated by our volunteers exceeds \$4,000,000. We owe a debt of gratitude to numerous local health care facilities, physicians and diagnostic centers for their contribution of pro bono services. Please help us continue to serve your community. Together we can make a difference in the health of Hernando County.
